EXECUTIVE SUMMARY

Python Full-Stack Developer skilled in Django, SQL, JavaScript, and responsive web development. Experienced in building and deploying scalable web applications with expertise in database design, authentication systems, analytics dashboards, and cloud deployment. Strong problem-solving skills with hands-on experience in full-stack development, workflow automation, and application performance optimization. Seeking Software Developer roles to build reliable and user-focused applications.

EDUCATION

MCA – Master of Computer Applications

2024 – 2026

Asan Memorial College of Arts and Science, Chennai, India | CGPA: 8.3

B.Com (CA) – Bachelor of Commerce with Computer Applications

2021 – 2024

Asan Memorial College of Arts and Science, Chennai, India | CGPA: 8.1

SKILLS

Technical Skills:

Languages: Python, JavaScript, SQL

Frameworks: Django

Web Technologies: HTML5, CSS3, Bootstrap, Responsive Design

Databases: MySQL, SQLite, PostgreSQL

DSA: Arrays, Hash Maps, Stacks, Queues

Tools & Development Environment: Git, GitHub, VS Code, Postman, Chart.js

Deployment: Netlify, Render, Streamlit, Vercel

PROJECTS

1. Complaint Management System (CMS Pro)

Technologies: Python, Django, JavaScript, Chart.js, HTML5, CSS3, Bootstrap 5, SQLite, SMTP

Hosted Application : [Cms-Pro.com](#) **Project Repository :** [Source Code](#)

- Developed and deployed an Enterprise Complaint Management System using Django with role-based access control (Admin/User), managing 50+ complaints across the complete resolution lifecycle.
- Built **Chart.js** analytics dashboards to visualize complaint status, resolution rates, and category-wise trends across 6 complaint categories.
- Automated SMTP email notifications and **CSV/PDF** reporting, reducing manual follow-ups by 80% and improving workflow efficiency.
- Designed a responsive Glassmorphism-based UI with **CSAT** feedback tracking and deployed the application on Vercel for secure cloud-based access.

2. VetSphere – Veterinary Care Management Platform

Technologies: Python, Django, JavaScript, Chart.js, HTML5, CSS3, Bootstrap 5, SQLite, SMTP

Hosted Application : [VetSphere.com](#) **Project Repository :** [Source Code](#)

- Developed and deployed a full-stack Veterinary Care Management Platform using Django and SQLite, managing 1000+ pet records, appointments, billing, and administrative workflows across 7 modules.
- Implemented role-based authentication, double-booking prevention, and automated **PDF invoice** generation to streamline clinic operations and customer management.
- Designed and optimized a relational database with **8+** interconnected models, improving application performance and reducing page load time by 35%.
- Built **Chart.js** analytics dashboards for appointment monitoring, revenue tracking, and operational reporting, enabling data-driven decision making.

CERTIFICATIONS

- React.js Development – Tech Force Institute (Component-based UI, Hooks, State Management)
- Employability Enhancement Skills – ACME Academy
