EXECUTIVE SUMMARY

MCA Fresher (2026) with hands-on experience building and deploying full-stack web applications using Python and Django. Developed role-based authentication systems, REST APIs, relational database solutions, and cloud-deployed applications across multiple projects. Strong foundation in Django ORM, CRUD operations, MVC architecture, and version control workflows. Seeking an entry-level Software Developer role to build scalable and user-focused applications.

SKILLS

Technical Skills:

Languages: Python, JavaScript, SQL

Frameworks: Django, Django REST Framework

Web Technologies: HTML5, CSS3, Bootstrap, Responsive Design

Databases: MySQL, SQLite, PostgreSQL, Django ORM

Architecture: MVC, CRUD Operations, REST API Design

DSA: Arrays, Hash Maps, Stacks, Queues

Tools & Development Environment: Git, GitHub, VS Code, Postman, Chart.js

Deployment: Netlify, Render, Streamlit, Vercel

PROJECTS

1. Complaint Management System (CMS Pro)

Technologies: Python, Django, JavaScript, Chart.js, HTML5, CSS3, Bootstrap 5, SQLite, SMTP

Hosted Application : [Live Demo](#) **Project Repository :** [GitHub Repo](#)

- Developed and deployed an enterprise Complaint Management System using Django with role-based access control (**Admin/User**) managing end-to-end complaint resolution lifecycle
- Built RESTful workflows with **SMTP** email automation to eliminate manual follow-up processes across multiple complaint categories.
- Implemented **Chart.js** analytics dashboards to visualize complaint status, resolution rates, and category-wise trends
- Designed **Glassmorphism UI** with CSAT feedback tracking and deployed on **Vercel** for secure cloud-based access.

2. VetSphere – Veterinary Care Management Platform

Technologies: Python, Django, JavaScript, Chart.js, HTML5, CSS3, Bootstrap 5, SQLite, SMTP

Hosted Application : [Live Demo](#) **Project Repository :** [GitHub Repo](#)

- Built full-stack Veterinary Care Management Platform using Django and SQLite covering pet records , appointments, billing, and admin workflows across 7 modules
- Implemented role-based authentication, double-booking prevention logic, and automated **PDF** invoice generation using Django ORM
- Designed normalized relational database with 8 interconnected models with optimized queries and pagination for improved application performance
- Built **Chart.js** dashboards for appointment monitoring, revenue tracking, and operational reporting to enable data-driven decision making.

EDUCATION

MCA – Master of Computer Applications

2024 – 2026

Asan Memorial College of Arts and Science, Chennai, India | CGPA: 8.7

B.Com (CA) – Bachelor of Commerce with Computer Applications

2021 – 2024

Asan Memorial College of Arts and Science, Chennai, India | CGPA: 7.2

CERTIFICATIONS

- React.js Development – Tech Force Institute (Component-based UI, Hooks, State Management)
- Employability Enhancement Skills – ACME Academy
